210 / 220

FEATURE	VALUE
1. Multiple GVW Configurations	Class 7 Model 220 can be rated at 26,000-33,000 lbs. Class 6 Model 210 rated to 26,000 lbs.
2. Expansive Windshield	Large windshield provides exceptional overall visibility
3. Spacious Interior	A wraparound dash with ergonomic design and automotive feel
4. Service Access	Service checks are easy with quick access to internal components
5. Allison Auto Transmission	Easy to operate for drivers of all skill sets
6. PACCAR PX-7 Engine	Lightweight but powerful and fuel efficient
7. Composite Bumper	Designed for maximum protection and rugged durability
8. Wheel Cut	Extremely tight turning radius for exceptional maneuverability
9. Air Brakes	Excellent stopping and brake handling, ideal for drivers without a CDL
10. Ergonomic Entry/Exit	Stair-style steps with non-slip treads provide easy and safe entry
11. Standard Frame Width	Standard 34" width to easily accommodate most body styles
12. Door Opening	Doors open a full 90 degrees
13. Breakaway Mirrors	Durable and lowered replacement cost
14. Versatile Applications	Ideal for pickup and delivery, refrigerated van, roll-off and landscaping applications

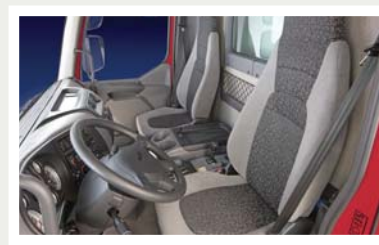

VISIBILITY

Exceptional visibility results from the combination of an expansive windshield, extra-large side windows and heated mirrors.

MANEUVERABILITY

With an extremely tight turning radius, the Models 220 and 210 readily tackle narrow spaces and master difficult maneuvers.

DRIVER COMFORT

A wraparound dash highlights the spacious interior. The ergonomic design of the multifunction steering wheel and driver info display enhance driver comfort and productivity.

FUEL EFFICIENCY

The PACCAR PX-7 Engine is lightweight and fuel-efficient, and delivers up to 250 hp. It's a proven workhorse that's also easy to service.
