

# 220 / 210

The Model 220 shown above.

# 220 / 210

A POWERFUL PAIR.

The **Model 220** is a beautifully compact package offering driver comfort, easy service, entry safety features and vigorous power. The 220 is a Class 7 truck with a GVW of 26,000-33,000 lbs. With low chassis weight, it's perfect for high-volume payloads while the standard Allison automatic transmission and air disc brakes help to provide a comfortable driver experience.

The **Model 210** is designed for driver productivity with 360-degree visibility, tight turning capability, rugged protection and convenient storage. Ideal for the urban environment and drivers without a CDL, the Peterbilt Model 210 is available as a Class 6 straight truck with GVW rated at 26,000 lbs.

For more information on the Models 220 and 210, contact your local Peterbilt dealer or visit [www.peterbilt.com](http://www.peterbilt.com)

The Peterbilt Models 220 and 210 deliver a combination of maneuverability, visibility and value that is best in class.

## VISIBILITY

Exceptional visibility results from the combination of an expansive windshield, extra-large side windows and heated mirrors.

## INTERIOR

The spacious Model 210/220 interior features a wrap-around dash with a driver information display, a multi-function steering wheel, and ample storage including overhead and rear-wall compartments.

## SERVICEABILITY

Service checks are easy. The front panel opens for quick access to the air filter, coolant, refrigerant, washer fluid, power-steering fluid, engine oil and 12-volt electrical outlet.

## MANEUVERABILITY

With an extremely tight turning radius, the Models 210/220 tackle tight spaces and master difficult maneuvers.
